* Dollar amounts are approximate.

We're committed to making Abilene healthier, in more ways than one.

Every year we treat thousands of people from our community. And while patients benefit from our being close by, ultimately it's the whole community that prospers from our presence. Whether it's through the people we employ, the local businesses we use, or the charities we support, we're committed to making our community a better place to live and work — and that's the best benefit of all.
